Simatc(R) ET 200L-SC IM-SC series migration items

It's been a long time since siemens stopped manufacturing the ET 200L-SC IM-SC series. The ET 200L-SC IM-SC series was received by many users due to its novel design.

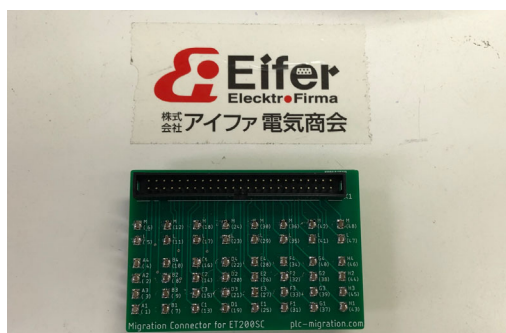

However, there are concerns about the stable operation of equipment systems incorporating the ET 200L-SC IM-SC.

Manual for ET 200L-SC IM-SC

https://cache.industry.siemens.com/dl/files/528/23988528/att_47365/v1/ET200L_e.pdf

Eifer Elektro provides products for smart migration of ET 200L-SC IM-SC to other models.

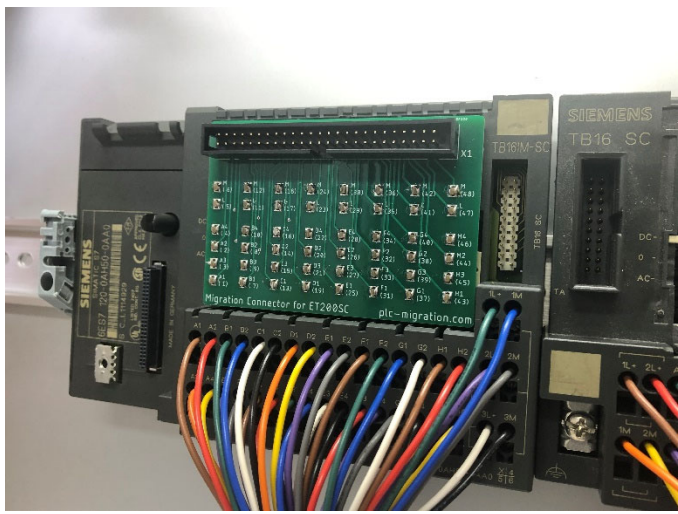

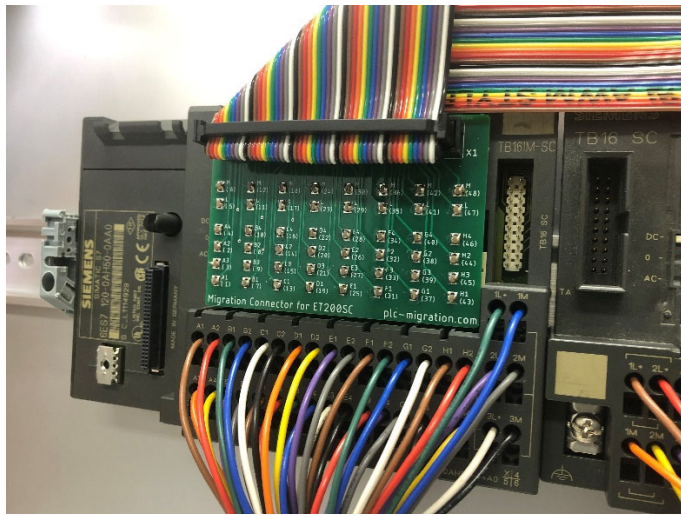

Existing ET 200L-SC IM-SC system

Remove SC electronic module

terminal block "TB 16 IM-SC" and migration connector

Connect MIL50pin Cable for
New System
